Her guidance going forward will be appreciated by the entire music community.”

Radio Groups Restructure

With $252 million in debt, Englewood, CO-based NextMedia has filed for a pre-arranged Chapter 11 bankruptcy in Delaware, forced by First Lien Agent (debtholder) Wilmington Trust. The company owns 36 stations including five Country properties: WCCQ/Chicago; KMKT/Denison, TX; WRNS-AM & FM/Greenville, NC; and WCEN/Saginaw, MI. The majority new equity holders will be Strategic Value Partners and Angelo, Gordon & Co. While dozens of unsecured creditors await repayment, the company is expected to continue to operate as usual in terms of its executive team and employees. Through bankruptcy, NextMedia’s debt could be reduced to $128 million, though certain properties may be sold.

Saddled by huge debt from acquiring 23 ABC stations and the ABC Radio Networks, Citadel filed for its long-expected pre-arranged bankruptcy December 20. The company is reporting assets of $1.4 billion and debt of $2.5 billion. CEO Farid Suleman is expected to continue to run Citadel, which has signed new multi-year deals with ABC News Radio and ESPN Audio. When the current Forstmann Little-backed entity clears bankruptcy (possibly in as few as 10 months), common stock shareholders will be wiped out, though the company could be servicing a more manageable $762.5 million. Secured creditors will control 90% of the reorganized enterprise, while bondholders and unsecured creditors would divide up the remaining 10% or weigh cash offers.

• A highly regarded song or album you've never heard: Anything by the Grateful Dead. I wouldn't recognize any song or be able to tell you the title of any of their albums.

• An “important” piece of music/band you just don’t get: Never did get the whole Nirvana thing. I can only recognize “Smells Like Teen Spirit,” and that’s only from watching VH1 countdowns.

• An album you played or listened to incessantly: The Ranch's self-titled album. I listened to that CD over and over when it first came out, and I still do. I think Keith Urban gets tired of me asking if he is going to do any Ranch tunes at his shows.

• One obscure or non-country song everyone should listen to right now: “Funhouse” by Pink.

My Tunes: Music That Shaped My Life

KSOP/Salt Lake City PD Deb Turpin discusses her most important songs, artists or concerts:

1. Johnny Cash, At San Quentin: I got the LP for my ninth birthday and literally wore it out. It was so fascinating to picture Johnny entertaining inmates. Weird for a nine-year-old girl to think about, but hey.

2. Fleetwood Mac, Rumours: I bet I have listened to this album thousands of times. The sound of Stevie Nicks’ voice is still so incredible to me, and the songs she and Lindsey Buckingham wrote are timeless.

3. Madonna/Like A Virgin: I used to crank this up in my room full-blast, and ran home from school every day to catch her on MTV. I could not wait to see what she would wear or sing next.

4. Sugarland, fall 2005, Ogden, UT: It was a KSOP listener appreciation show, and when Kristen, Kristian and Jennifer took the stage it was magical. The music, lyrics, harmony and way Jennifer spoke to the crowd was unbelievable.

5. Garth Brooks, 1993, SLC: My son Wyatt was three months old and threw up on one of Garth’s prized “Mo Betta” shirts backstage. Garth took it all in stride and put another on for the show. However, he did chastise me for bringing a baby to such a loud show, and one of his crew promptly brought us a set of earplugs.

• A highly regarded song or album you've never heard: Anything by the Grateful Dead. I wouldn't recognize any song or be able to tell you the title of any of their albums.

• An “important” piece of music/band you just don’t get: Never did get the whole Nirvana thing. I can only recognize “Smells Like Teen Spirit,” and that’s only from watching VH1 countdowns.

• One obscure or non-country song everyone should listen to right now: “Funhouse” by Pink.
Meanwhile, Clear Channel Outdoor has closed on its $2.5 billion note offering by its subsidiary CC Worldwide Holdings, which will loan those proceeds to repay $2 billion in debt owed to Clear Channel Communications.

He will launch a donation website with a blog, Twitter updates and map documenting his journey west. Learn more here.
